PSYCHOLOGY INTERSHIP TRAINING PLAN 2026

INDUSTRIAL SETTING The required 300-hour supervised professional practicum, conducted under a qualified Human Resource Development Management professional (preferably with CHRA or CPHR certification), fulfills a partial professional licensure requirement. Training provides comprehensive experience in core organizational and behavioral practices, including: conducting intake interviews and employee consultations; administering psychological and performance-based assessments; generating confidential case and diagnostic reports compliant with HR standards; facilitating psychoeducational and process groups; and delivering specialized, evidence-based interventions (e.g., individual coaching, CBT, support groups) to maximize organizational productivity, ensure employee well-being, and drive clinical client benefit.

PROFESSIONAL ATTIRE

Industrial setting: To prepare the upcoming students of qualified trainees for external placement during the next semester, we are highly motivated to sustain our strong collaborative relationship by requesting the renewal of our existing partnership agreement or the negotiation of a new Memorandum of Agreement (MOA). For internal professional standards, all practicum trainees engaging with your organization are required to adhere to the prescribed professional uniform, consisting of a white clinical/professional tunic (provided by the academic institution), paired with appropriate dark socks/hosiery and white closed professional footwear, ensuring compliance with clinical hygiene protocols and maintaining a consistent corporate image throughout their service period.

START DATE: February 2, 2026 (Monday) at 8:00 AM

The following students are expected to render their on-the-job training in accordance with the schedule provided below. Their designated workdays are highlighted in the calendar to ensure alignment with the required training hours and facilitate proper attendance monitoring.
